

## Spring Workshop – 2020

### COVID-19

March 16, 2020

After discussions with the Board and the Presenters, the Executive feels that it would be irresponsible to continue the Spring Workshops dated March 23, 2020 to March 30, 2020 as scheduled due to the concerns surrounding COVID-19.

Being that the Election portion of the workshop will be vitally important in the coming months, we also feel that this workshop should still go ahead with alterations.

While not ideal, the presenters from Advisory Services have been kind enough to change the format of the elections portion of the workshop to a live webinar. The Dealing with Difficult Conversations portion will be postponed and combined with another workshop after the COVID-19 situation has passed.

Details on how to participate in the Elections workshop will be released, along with the slideshow, as soon as it is available. A statement regarding refunds/credits will be forthcoming.
